Full-Stack Developer (Next.js, React, TypeScript, NestJS, MongoDB) building admissions, examination, fee-payment and student-record modules of a multi-tenant College ERP — 72+ pages, 600+ components and 65+ validated form schemas.

EXPERIENCE

Seratek Systems (formerly Akron System)

Kolhapur, Maharashtra

Full-Stack Developer

Jan. 2026 – Present

- Developed **72+ pages** on **Next.js App Router (TypeScript)** with a **600+ component shadcn/ui + Radix + Tailwind** design system; refactored repeated UI into shared components
- Implemented multi-step admission forms with **React Hook Form + Zod (65+ schemas, 17+ field-array forms)**
- Engineered role-based **Internal Marks** submission (**1,200+ lines**): Faculty flow (KPI cards, bulk “Mark All”, inline editing) and Admin flow with Freeze/Unfreeze via persona-based **RBAC** routing; view-only feedback-cycle setup
- Resolved **Examination**-module race conditions with a module-level **5-minute TTL cache**, eliminating duplicate API calls, and typed validation for Degree data returned as array or string
- Refactored a **635+ line** fee-installment component into a `useStudentInstallments hook` and `InstallmentRow`; fixed concession math and 404 handling; built **PayU** refund-status flows and fixed production bugs
- Developed **Preview-Personalization** backend (**11 files, 700+ lines**): **GraphQL** + REST APIs, **Mongoose** schema and DTOs; plus **NestJS** endpoints in gateway, admission and student services
- Standardized **DD/MM/YYYY** dates across ID cards, certificates and fee receipts (frontend + backend receipt utility); built the question-paper **PDF export** UI
- Secured routes with **AuthGuard**; state via **Redux Toolkit, React Query, Apollo**; **next/dynamic** splitting

Software Developer Intern, Seratek Systems

June 2025 – Dec. 2025

- Delivered **NestJS + MongoDB** REST APIs and **shadcn/ui CRUD** pages for student, course and scholarship modules

PROJECTS

Personal Portfolio – 3D Interactive Site | Next.js, React Three Fiber, Three.js, Framer Motion

- Built a scroll-driven **3D portfolio** with procedural **Three.js** scenes, optimized for 90+ Lighthouse mobile scores

Parko – Online Parking System | Next.js, NestJS, MongoDB, Leaflet, Vercel

- Built a role-based parking platform with **Leaflet** maps and automated fee calculation; deployed on **Vercel**

EDUCATION

Walchand Institute of Technology

Graduated June 2026

B.Tech in Information Technology; CGPA: 8.76/10

Solapur, Maharashtra

DKTE's Yashwantrao Chavan Polytechnic

Passed 2023

Diploma; Percentage: 82.46%

Ichalkaranji, Maharashtra

TECHNICAL SKILLS

Frontend : TypeScript, JavaScript, React.js, Next.js, Redux Toolkit, React Query, React Hook Form, Zod, Tailwind CSS, shadcn/ui, HTML/CSS

Backend & Data : Node.js, NestJS, RESTful APIs, GraphQL (Apollo), MongoDB (Mongoose)

Tools & Concepts : Git, Postman, Azure Boards, Vercel; Microservices, Multi-tenancy, RBAC, SSR, Caching, OOP, DBMS, Agile
